Pleatco PureSTART™

DISPOSABLE PRE-FILL SEDIMENT FILTERS

Introducing NEW **Pleatco PureStart®** Pre-Filters - A revolutionary product range scientifically engineered to overcome the problems associated with tap, ground and WELL water being used for filling and topping off pools, spas and hot tubs regardless of make, model or size. These new disposable sediment filter cartridges are made from unique melt-spun filtration technology for perfect depth filtration. Pleatco PureStart® cartridges attach to a garden hose and capture dirt particles filtering the water BEFORE it enters into a spa or pool.

The city water you use to fill a pool or spa is not by any means ready for instant use. By using a Pleatco PureStart® Cartridge to clean as you fill or top off, the turnaround time to get your customers enjoying their pool or spa is far quicker. Customers with WELL water in particular need to capture all levels of dirt and particles. Pleatco PureStart® cartridges provide filtration down to 5 microns trapping elements such as magnesium, iron and calcium deposits. This means less chemicals when starting up a pool or spa. Pleatco PureStart® filters are disposable and can be used to either fill or top off a body of water of any size.

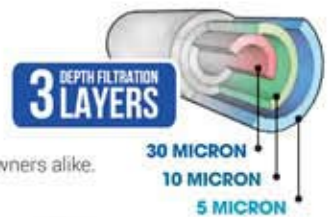

Pleatco PureStart® filters come in two sizes. The smaller PPS2100 filters up to 10,000 gallons of water and is ideal for spas and hot tubs, kiddie pools, above ground pools, swimming spas and topping off large pools. This is the ideal product that a customer themselves can use with ease.

The larger Pleatco PureStart PPS6120 filters up to 40,000 gallons of water is mainly used by service pros for filling large bodies of water from above ground pools to swimming spas, to in ground pools and sport facility pools. PureStart® filters are engineered to float in water so they do not damage the pool. Smooth curved end-caps prevent the brass end of the hose from resting against the pool finish. This allows the filter to safely rest in a pool without damaging the walls.

Pleatco PureStart® filters have the LARGEST surface area of depth filtration media providing:

- More flow through put (Faster Pool Fills)
- Higher Dirt holding capacity (Compared to competitors)
- Extremely long lasting product life
- Multiple Pool Fills

Extremely affordable and a superior replacement for other competitor products, the Pleatco PureStart® Pre-fill cartridges are perfect for both service pros and pool and spa owners alike.

"I've now put about 10,000 gallons of water through this new Pleatco PureSmart® depth filtration pre-fill cartridge. It captures dirt particles and perfectly purifies the water like I need it to, and performs so fast that I don't have to dedicate a huge amount of time to baby-sit a filling hot tub or pool. It allows a faster, cleaner fill than all of the other filters I've used and has made my job so much easier!"

Top: **Closed**

Bottom: **Garden hose fitting**

**POOL
& LARGE
SPA FILL**

INSTRUCTIONS

- Attach filter to the garden hose to fill up Pools or Spas
- After use, allow to dry and store away in dry place
- Replace filter element when filter begins to restrict water flow

PRE-FILL FILTER FOR POOLS

Melt-Spun Depth Filtration

Premium Quality, Disposable Sediment Filter Cartridge

PPS6120

Disposable Sediment Filter

Pleatco's PURE START 6120 Disposable Sediment Filter is a scientifically engineered cartridge that attaches to a garden hose and captures dirt and heavy metal and mineral particles, filtering the water BEFORE it enters into your swimming pool or large spa.

- ✓ Premium quality, disposable sediment filter with hose adapter
- ✓ Attaches to the end of any garden hose
- ✓ Easier to balance chemicals from the start
- ✓ Removes solids from water. Reduces hard mineral deposits and extends filter life
- ✓ Engineered for higher dirt holding capacity & better flow rates to allow for faster Spa or Pool fills
- ✓ Superior Melt-spun technology that delivers greater performance than any other sediment filter type
- ✓ Multiple Pool Fills / Extremely long lasting product life
- ✓ Replaces Filbur FC-3129
