

# Introducing SeaKlear Shock Pods for Spas & Hot Tubs

Made in USA

Only SeaKlear offers a premeasured and convenient method for keeping hot tub water clean without touching messy chemicals.

Consumers just toss in one pod after each use to quickly clean their hot tub water.

## SeaKlear Shock Oxidizer Pods

- Oxidizes organic contaminants like skin, perspiration, hair products, body lotions, perfumes and oils
- Minimizes or eliminates odors
- Helps to reduce sanitizer demand
- Controls the formation of chloramines

**Ingredients:** Dupont Oxone and Sodium Carbonate

- Specialty formulated and balanced to maintain pH
- No messy or wasteful measuring versus granular formulas
- No need to handle chemical tablets directly
- Convenient toss and go pod
- Volume package includes 20 SeaKlear Spa pods
- Easy to add to your Spa dealers auto ship programs
- Merchandise with SeaKlear Natural Clarifier as a Shock-Extender

**1 pod = treats up to 500 gallons**

## Directions:

After each hot tub use, toss one Shock Pod directly into the water with the pump running. The pod film will self-dissolve in a few minutes. Remember to leave the cover off the tub for about an hour and wait 15 minutes before entering water.

**SKU#:** 1160051

**1 pod:** 1 dose

**1 bottle:** 20 doses

**1 case:** 12 bottles
