

Easy as 1...2...3

Quantum™ 3-Step System

1

Shock oxidize with Quantum™ Q-Shock II, a multipurpose chlorine shock oxidizer treatment that shocks, sanitizes and prevents algae to create sparkling clear water.

2

Treat and prevent black, green and yellow algae with Quash! algaecide. Its special blend of algaecides, coagulants and filter aids makes it effective and Quash! is non-metallic, non-staining and nonfoaming.

3

Sanitize with triple-action Quantum™ Trilogy Tabs that sanitize, prevent algae and clarify pool water. This innovative technology can be used on all pool surfaces and produces sparkling clean swimming pool water.
