

Problem...Meet Solution.

Our revolutionary pool cover padding delivers targeted protection to help control pool cover chaffing. The padding easily snaps on to the perimeter webbing. The 26"W x 30"L pad snaps securely in place and may be cut to custom fit any size required.

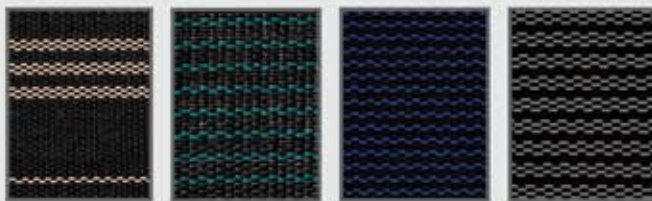

It is an easy 2 step process:

1. Slide panel under the cover.
2. Snap the panel onto the webbing.

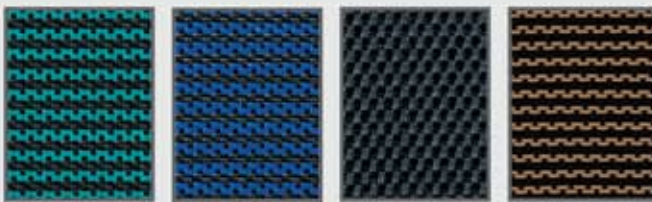

Anti-Abrasion Material Creates a Protective Barrier Between the Cover & Deck

PATCH KIT

9000MX™ 7000MS™ Green 7000MS™ Blue 7000MS™ Gray

5000M™ Green 5000M™ Blue 5000M™ Black 5000M™ Tan

This is the perfect solution for covers that have experienced some wear and tear over the winter months. These "peel & stick" patch kits are ideal for covering any hole under 3 inches in size. The patch can be used on both the top and bottom of the cover for optimal reinforcement.

Packages include (3) 4"x8" patches.

Available in all mesh options.

CoverLogix, a leader in safety covers, proudly manufactures safety covers and accessories for the CoverScapes Program, a brand of Imperial Pools, Inc.
