Saratoga Step Production Announcement

In order to maximize Saratoga Step manufacturing capacity, we will focus all of our thermo-forming capabilities on our most popular models for the remainder of the 2020 season. By limiting mold changes in the vacuum forming operations we will increase our productivity, efficiency and capacity.

We are also experiencing supply constraints from our acrylic sheet manufacturers, who have been inundated with orders for clear acrylic sheet due to Covid-19 protocols. As a result there will likely be shortages of some models for the remainder of the season. There is inventory available in most of those models, but only while existing supply lasts.

Attached is a quick reference guide indicating what we will continue manufacturing for 2020 season along with a list of all steps by sku.

Thank you in advance for your continued support, patience and understanding.

Your Saratoga Step Team,
