**NOVEMBER 12, 2020**

**Saratoga Step 2021 Product Line Announcement**

In order to have the most popular step models & colors readily available we will continue to limit the scope of the 2021 Saratoga Step Product Line. By limiting mold changes in the vacuum forming operations we will increase our productivity, efficiency and maximize capacity.

Attached is a list of all steps that will be available for the 2021 season. Based on demand and capacity we will re-evaluate in first quarter to determine if any further models will be brought back on-line for 2021 season. Please direct your sales in the coming months to these models & colors in order to maximize order fulfillment.

There is inventory available for some models that we have temporarily ceased production. Please contact sales or your local branch for current inventory availability by model.

Thank you for your continued support,

Your Saratoga Step Team
