The pool pictures and videos in this brochure have been computer generated. Pool shapes and features may not be 100% accurate. The interior finishes have been enhanced to give the viewer a general feel of how a chosen pattern may look in the pool.

Your Decor Options

Classic: Pages 12 - 15

The classic design originated from the European culture. The Greek and the Roman are the main inspirations of the classic design. Very elegant and ornate, the classic design never goes out of style!

Geometric: Pages 16 - 23

A geometric pattern is linear, consisting of figures such as triangles, rectangles, circles and squares. Geometric patterns are found in many places, including art and architecture, and they tend to be symmetrical. This creates a very clean, simple and sophisticated look.

Contemporary: Pages 24 - 30

Contemporary design is rooted in the moment as in this moment, the here and now. Smooth flowing profiles instead of ornamentation. A strong emphasis on line and form — two essentials of good design — gives contemporary style its energy.

Water Color

Look for our water color guide below each pattern

Aqua

With color hues that will remind you of the Caribbean as the sand descends into the blue waters below your feet.

Light

A light blue that turns your pool into a tropical beach paradise.

Medium

Temperate medium-blue shades transports you to lands and antiquities half a world away.

Dark

A dark sapphire hue whisks you away to the ocean's deepest waters, inviting you to explore all of the riches below its surface.

NOTE: This Water Color Guide is designed to give you an indication of the waters hue based on the interior finish you desire. However, the hue is subjective due to natural sunlight and the surrounding landscape which will affect the water color. Consult your dealer to choose the interior pool finish that will give you the results you are looking for.

PERFECT SEAM[®] TECHNOLOGY & BEAD COLOR

Perfection is improving something until it is as flawless as possible.

We have invested in state-of-the-art manufacturing equipment and combined it with time tested sealing methods. This allows us to make an interior pool finish that is as flawless as possible with seams that are less noticeable, strong and water tight!

Our Interior Pool Finishes[™] are the finest made in the market today.

Bead Color

Each of our interior finishes has a bead color companion. For your convenience we've noted bead colors next to each pattern.

The Interior Finishes™ in this brochure are representational of actual material but are not an exact match. Always ask your dealer to see an actual sample of the Interior Finish™ you choose to make certain it meets your expectation.

www.sunpropools.com

Due to the nature of the material, and various pool angles, it is improbable that floor tiles or pattern repeats will align. This Water Color Guide is designed to give you an indication of the waters hue based on the interior finish you desire. However, the hue is subjective due to natural sunlight and the surrounding landscape which will affect the water color. Consult your dealer to choose the interior pool finish that will give you the results you are looking for.

WARRANTIES

Our interior pool finishes carry 20 years of prorated coverage with the first 5 years covered in full. More comprehensive coverage is available to you through our Liner Guard Warranty. Ask your dealer for details.

SAFETY

Your pool can give you, your family and guests many years of fun and relaxation. Take the responsibility for safety.

Any recreational activity that involves water poses a risk of personal injury. Swimming in an inground pool is no exception. Your awareness and understanding of safety practices and rules pertaining to the use of inground pools can reduce the risk of serious injury.

Read the Pool & Hot Tub Alliance's excellent brochure, "The Sensible Way To Enjoy Your Inground Pool", to learn how to avoid swimming related accidents.

Don't allow diving or jumping in your pool. Remember, alcohol consumption and swimming do not mix. Carefully supervise all the swimmers in your pool, especially small children. They're your responsibility! Always secure your pool from unsupervised and unauthorized use. Make sure signs, stickers and labels are posted and clearly visible and that rescue devices, such as life rings or ropes are nearby.

Swimmers using your pool are your responsibility. Visit <http://imperialpools.com/pool-safety-program> for understanding of safety practices and rules pertaining to the use of inground pools.
