Safety Package Your pool can give you, your family and your guests many years of fun and relaxation. Take the responsibility for safety. Any recreational activity that involves water poses a risk of personal injury. Swimming in an above ground pool is no exception. Your awareness and understanding of safety practices and rules pertaining to the use of above ground pools can reduce the risk of serious injury. Read the Association of Pool and Spa Professional's excellent brochure: "The Sensible Way To Enjoy Your Above Ground/Onground Pool" to learn how to avoid swimming related accidents.
