

# Natural Clarifier

## Back Panel Instruction Sheet

### **USE NATURAL CLARIFIER WEEKLY!**

#### **NO MORE CLOUDY WATER**

Cloudy water can be caused by bacteria, poor water balance, algae, or fine particles of impurities. Natural Clarifier works to combine tiny particles of dirt, dead algae and color into masses large enough for the filter to trap

#### **NO MORE CHLORINE SMELL**

Natural Clarifier gathers reduces the formation of chloramines (also known as 'combined chlorine'). The chemical in your water that stings your eyes and burns your nose.

#### **NO MORE OIL AND SCUM**

Natural Clarifier encapsulates body oils and cosmetics and prevents them from combining with soaps and swimmer wastes to form unsightly scum deposits.

#### **NO MORE MESSY FILTERS**

Natural Clarifier does wonders for cartridge, sand, and D.E. filters. Your filter won't gum up with oil. It will stay like new as it works better and lasts longer between changes.

#### **NO MORE EXCESSIVE CHEMICAL CONSUMPTION**

Natural Clarifier makes every sanitization system work better, including bromine, Baquacil®, ionization and ozone, helping to lower your total chemical bill. Use Natural Clarifier once a week and you can stop using metal sequestrants, filter cleaners and costly enzymes. Sanitizers will last longer and algaecides will work better.

#### **DIRECTIONS FOR USE**

1. Clean or backwash your filter if applying initial dose.
2. Squirt desired dose (1 ounce treats 5,000 gallons) across the water's surface (no premixing is required). If your water is especially dirty, you can double or triple the dose.
3. Allow at least 6 hours of continuous filtration.
4. Maintain your water's sparkling clarity by using Natural Clarifier every week.
